From the Christian Statesman. "THE FOOL HATH SAID IN HIS HEART THERE IS

"No God! No God!" The simplest flower That on the wild is found, Shrinks as it drinks its oup of dew, And trembles at the sound: "No God I" the astonished Echo cries From out the cavern liour, And every wandering bird that files Reproves the Atheist-lore. The solemn forest lifts its head, The Almighty to proclaim, The brooklet, on its crystal urn, Doth leap to give his name.

High swells the deep and vengeful sea, Along his billowy track, And red Vesuvius opes his mouth To harl the falsedood back. The palm-tree, with its princely crest, The cocoa's lenfy shade, The bread-fruit, bending to its lord, In you fair island glade; The winged seeds, that by the winds, The roving sparrows feed, The melon, on the descrt sands,

Confute the scorner's creed. "No God!" With indignation high The fervent Sun is stirred, And the pale Moon turns paler still, At such an impious word; And from their burning thrones, the Stars Look down with angry eye, That thus a worm of dust should mock

Other States, of less weigh in the great Confederacy, but of not less weight of character, have likewise united themselves, to that great army of Freemen who have railied and are tallying and will rally under the broad banner of Democracy.

In the great States of Maine, Pennsylvania, New York and Ohio, the hopes of Federalism were centered. Strengthened by the support, they were conscious of success in their citiens to overthrow the present Demogratic Administration of the General Government. Deprived of one of these States, even, they were conscious of defeat in all their projects of underminding Vance, the Federal candidate for Governor, these great States have declared for Democracy the administration. Not one only but three of and against Federalism. In New York, no election has as yet taken place, but a most vigorous contest is progressing, but are the Whigs confident of success? RECUMMENDATIONS.

From Mr. Page, Principal of the English High School, Neichuryport.

Benjamin Greenleaf, Esq. Dear Sir: I have with much care examined the National Arithmetic, of which you are the author, and after having compared it, urticle by article, with the various other publications that have come to my hands, I hesitate not to say, that it contains i greater amount of matter, and a better arrangement of subjects, thun any other book I have seen. Your rules and explanations are clear and definite, and your exam-ples are well calculated to fix them in the mind. I congratulate the community on this valuable accession to our list of school books; and shall take pleasure in secing your Arithmetic extensively introduced into all our schools, as also into that under my own care.

Yours, with just respect, DAVID P. PAGE. Newhurypart, Mass., March 5, 1836. From the Preceptor of Hampton Falls (N. H.) Academy. I have used the National Arithmetic the past season, and am much pleased with it; and upon thorough examination and comparison with others, I think it not only superior to any of them, but will answer us a sub-stitute for nearly all the arithmetics now in use.

## A PROCLAMATION.

FOR A DAY OF

PUBLIC PRAISE AND THANKSGIVING. The people of this State, having at the commencement of the ing and praise to the Author of all good and the Father of all

I do, therefore with the advice and consent of the Council appoint Thursday, the Twenty-Ninth Day or November Ment, to be observed as a day of public Praise and Thanksgiving; and the people of this State are requested to assemble on that day, in their respective places of public worship, and to unite in religious exercises appropriate to the occasion.

May it be a day consecrated to the high and holy purpose of devoit gratitude to Almighty God, for his mercies and his blossings unmerited and yet unnumbered. Let us thank God, that our civil and religious liberty is continued to us; that our rights, have been protected, and that peace the first desire and greatest blessing of civilized and christian nations, has been unitered. uninterruptedly enjoyed by our State; that wasting and destroying pestilence has not visited us, and that health and strength have been so remarkably preserved to our people; that the earth has been clothed in beauty and magnificence for the gratification as well as the comfort of man, that the seed, committed to it in confidence and hope, watered and quickened by the rain and dews and sunshine of heaven, has yielded a plenti-

Let us thank God for the means of education and intellectual

And the people of this State are requested to abstain from their usual labors on that day, and from all recreations, inconsistent with the due observance of a solemn festival of devout thanks-

Let -All animal bodies originate from a fluid. 21,-By the circulation of a fluid, animal bodies are forme

increased and supported.

3d.—This life giving circulating fluid is the BLOOD.

Ath —An ordinary man contains about three and a half galous, or twenty eight pseuds of blood. 5th .- About two ounces of blood are propelled by the bear

t each contraction. 6th .- The heart contracts seventy times per minute, there fine all the blood in the body passes through the heart in three

7th.—The body is constantly subject to two distinct process es, viz:—decomposition and reorganization.

Sth.—Reorganization is affected by the blood, which flowing

from the heart through the interies, supplies the waste of the system, by restoring decayed parts.

9th.—The blood in its return to the heart through the veins, brings with it those particles which have become deleterious through decomposition.

10th.—The mere fluid of these deleterious particles pass from

the body through the skin in the shape of perspiration; but the grosser humors are discharged through exerctories into the lowels.

11th.- A want of proper action in these natural drains is the

primary cause of all disease.

12th.—The natural outlets being closed, the decayed partitles or mothid humors must either be retained in the blood, or said down somewhere within the body.

13th.—The particular kind of disease which shall casus de-

panis altogether on the part wherein the morbid humors may finally be folged.

14th.—The same humor, which when lodged in the liver, causes bilious complaints, would, if lodged in the lungs, cause consumption; or if in the membranes and muscles, theuma-

15th .- All those derangements of the system, which receive the name of separate diseases, are, in fact, only so many diferent modification of one effect resulting from one cause.

16.—The cause IS THE IMPURITY OF THE

BLOOD.

17th.—All effects cease when the cause is removed; therefore purify the blood, and di case MUST VANISH.

18th.—There is no effectual method of purifying the blood, except by the use of a regetable physic.

19th.—This regetable physic must be of such a nature that it may be taken for any length of time without injury to the discretize or any or most.

20th. The ONLY MEDICINE KNOWN to possess those properties, is Dr Brandreth's Universal Vegetable Pills.

21st. These pills were brought to their present state a perfection eighty years ago, by Dr William Brandreth, (grandfather to Dr Benjamin Brandreth, the present proprietor,) who spent thirty years in investigating the Vegetable Kingdom, in order that he might discover a medicine which should at once parify and remove by purgation all bad humors from the blood, by the stomach and howels; and at the same time by acting harmoniously with the system, do no violence to the constitu-
